AES

The next session of the AES will start on Monday 3rd March. Here is the registration timetable:

- Registration opens on Eduka from noon **on Friday 24th January to noon on Sunday 2nd February.**
- Reopening from 3rd to 7th February for families whose session has been cancelled.

It is difficult to manage groups when you cancel a registration after confirmation. If there are too many cancellations, we are forced to close the activity after confirmation, putting other families in difficulty. We would ask you not to make too many hypothetical registrations when the server opens.

You can consult the provisional timetable now on the LFIB website: [click here](#). New activities will be offered in semester 2: Thai art workshops, science for elementary pupils and an introduction to Japanese.

NB: Registrations for families who have not paid their tuition fees will not be validated.

Child Safeguarding Policy

A communication on the child safeguarding policy was sent to you before the last holidays. The [French](#) and [English](#) versions are available on our website.

We would also like to remind you of two new procedures that have been implemented since January:

Reporting concerns

You can report any child protection concerns to the following email address: safe@lfib.ac.th

Visitors

For appointments at the LFIB, you will need to fill in the visitor form, which can be accessed via this QR code.
