Important Notice:

1. Basis for Fuel Surcharge Calculation for the 2026–2027 School Year

The transportation fee has been calculated based on a diesel price of **THB 32.00 per liter**. However, due to fluctuations in fuel prices, we have applied a Fuel Surcharge based on an estimated diesel price range of **THB 45.01–46.00 per liter**.

Should the actual average diesel price exceed the estimated range, any additional Fuel Surcharge will be calculated as shown in the table below.

Diesel Price (Baht/Liter)		Extra Fuel Charged (Baht/Rider/Step/Day)
Start	End	
32.01	33.00	3

2. Fuel Price Review Process

At the end of each school term, the actual average diesel price will be reviewed, and any difference between the estimated and actual diesel prices will be determined. If the amount collected exceeds the actual cost, the difference will be credited toward the transportation fee for the subsequent school term. However, if the transportation service is cancelled before the credit is applied, the remaining credit balance will be refunded directly to the parents.

Conversely, if the actual average diesel price exceeds the estimated diesel price, an additional fuel surcharge will be charged in accordance with the applicable rate specified in the Fuel Adjustment Table above.

3. Fuel Surcharge Refund for Term 3 (2025–2026)

Following the final review of diesel prices for Term 3 of the 2025–2026 school year (5th May - 30th June, 2026), any excess fuel surcharge collected will be refunded by applying a credit to the Term 1 (2026–2027) transportation fee. The applicable credit amount will be shown as a fuel surcharge credit on your invoice.
